How did you learn about The Anti-Cruelty Society? \_\_\_\_\_

The Anti-Cruelty Society has provided a thorough veterinary exam, vaccinations and more to ensure that the animal you are adopting today is healthy. However, because most animals arrive at the shelter without routine vaccinations, there is a short term risk of contagion. Viruses can incubate up to 10 days or more with no symptoms present. Because of this, The Anti-Cruelty Society will provide free care in our clinic for the next 15 days. This requires that you contact us with any concerns promptly. We have veterinarians on staff every day of the year to provide this assistance. Each message left for one of our busy doctors will be returned in a timely manner. We also encourage you to take advantage of the free gift of insurance provided by Sheltercare for this important transition period.

Please note that if you choose not to take advantage of this support, and authorize care at a private veterinary hospital The Anti-Cruelty Society cannot reimburse you for those expenses.
